EXPERIENCE

Bright Future IT Solution   June 2025 – Nov 2025
Full Stack Developer Intern   *Aurangabad, Maharashtra*

- Contributed to end-to-end full-stack web development projects, ensuring responsive design and seamless backend integration using React and Python.
- Collaborated on live client projects to optimize code performance, reduce load times, and improve overall user experience.
- Gained hands-on experience in debugging complex issues, version control (Git), and database management.
- Assisted in the deployment of web applications and maintained documentation for future development cycles.

Freelance Experience   Sep 2024 – Present
Full Stack Developer & Digital Marketer   *Remote / Hybrid*

- Delivered 11+ live projects for diverse clients ranging from e-commerce platforms to educational portals (e.g., KPSWebDev, PitambareCollege).
- Developed custom automation bots using Python and Selenium to streamline client business workflows, reducing manual data entry tasks.
- Managed end-to-end digital marketing campaigns (Meta & Google Ads) and implemented SEO strategies that increased client web traffic.
- Designed intuitive, mobile-first user interfaces and converted them into pixel-perfect code using Tailwind CSS and React.

PROJECTS

RestroManager API & System | Full Stack Development
- Designed a scalable restaurant management ecosystem using Django REST Framework for the backend and React.js for the frontend.
- Integrated WebSockets to enable real-time, instant updates across the Kitchen Display System (KDS) and waiter apps, eliminating the need for manual page refreshes.
- Architected complex database schemas to handle live order lifecycles, menu inventory management, and staff authentication.
- Optimized database queries to ensure low-latency performance for active table management and instant billing generation.

AI Database Query Assistant | AI & NLP Project
- Developed an innovative AI tool allowing users to interact with databases using natural language queries (English to SQL).
- Utilized LLMs and Python to parse user questions and execute accurate database commands automatically.
- Selected as a finalist in a National Level Tech Competition for innovation in database accessibility.

Live Client Portfolio | Web Development & SEO
- Sanjari Agro & CCT Official: Developed fully responsive business websites focused on lead generation and brand visibility.
- LookBass & Tourist Aurangabad: Created content-rich platforms with SEO optimization to drive organic search traffic.
- Pitambare College: Built an educational portal for information dissemination and student engagement.
